

GenFlex™ Flexguard™ Peel & Stick™ EPDM Walkway Pads

GenFlex Flexguard Peel & Stick EPDM Walkway Pads combine the wear resistance of a rubber walkway pad with the strength of GenFlex butyl seam tape, which is factory-laminated to the bottom of the walkway pad.

- Easier and Faster to Apply than traditional walkway pads
- Surface Pattern Design Increases slip resistance
- Labor Savings Fewer installation steps increases productivity
- Improved Performance Butyl tape provides consistent, proven adhesion and strength
- 5/16" Thick Rubber Pad Highly resistant to damage by rooftop traffic
- GenFlex EPDM Flexguard Peel & Stick Walkway Pads can be used with all GenFlex EPDM and TPO Roofing Systems
