

GENFAST™ GYPTEC SEAM PLATE

Item Description

2" Round GypTec Seam Plate

Item Number

W590051015

Product Information

Description

GenFlex GenFast GypTec Seam Plates are specifically designed to be used with GenFast GypTec Fasteners for attaching GenFlex membranes to approved decks including cementitious wood fiber (i.e. Tectum) or gypsum.

Typical Properties	
Property	Typical Values
Material	Galvalume®
Material Thickness	0.030" (.76 mm)
Corrosion Coating	AZ – 55; Exceeds FM 4470 Criteria
Plate Shape	2" (50.8 mm) round

Galvalume is a registered trademark of BIEC International, Inc.

Installation

Refer to current GenFlex Technical Specifications for additional instructions.

Position the seam plates over the membrane as specified by GenFlex Specifications and Details. Attach the plates through the membrane and into the roof deck using GenFlex GypTec Fasteners. Install the plates with the "GenFlex" name showing.

Pullout Values - Results will vary depending on the condition of the deck. Verify pullout by on-site testing with a minimum 1.5" (38.1 mm) penetration into the decks. Check current GenFlex specifications for exceptions and/or changes.

Installation Precautions

- Eye protection must be worn during installation of the fasteners to prevent injury.
- Care should be used when handling and or transporting buckets of fasteners.
- Insulation plates are manufactured from Galvalume metal. Precautions should be taken to avoid metal slivers when handling and during installation.
- Overdriving the fastener can cause damage to the insulation facer.
- Fasteners should never penetrate through the underside of the deck.
