

# WHAT'S NEW

## New TPO Inside/Outside Corners

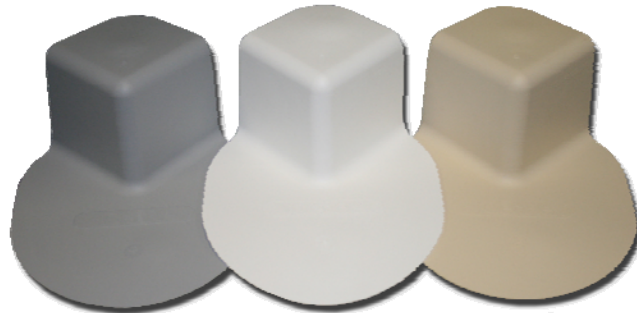

October 8, 2009

To: GenFlex Authorized Distributors  
GenFlex Licensed Contractors

Subject: New Product – GenFlex TPO Inside/Outside Corners

Reducing inventory is always a good idea, provided you have the right products when you need them. That's why GenFlex Roofing Systems has redesigned our TPO Corners to include both an Inside & Outside Corner in one piece.

This new Corner is an injection-molded TPO component made from non-reinforced thermoplastic polyolefin and is specifically designed to be field cut into the desired part.

The following product information can be used when ordering these new products:

<u>Product Name</u>	<u>Product Number</u>	<u>Quantity</u>	<u>Packaging</u>
TPO Inside/Outside Corner	W590030083 (White)	10	Carton
TPO Inside/Outside Corner	W590030084 (Grey)	10	Carton
TPO Inside/Outside Corner	W590030103 (Tan)	10	Carton

Please note that existing inventories of Inside and Outside Corners will be depleted prior to shipment of the new parts.

For additional product information, including physical properties and application instructions, please refer to the appropriate Product Data Sheet located in the Technical Info tab at [www.genflex.com](http://www.genflex.com). Contact your local GenFlex Distributor for more information on GenFlex's new Inside/Outside Corners.

Thank you for your continued support of GenFlex.

Sincerely,

James E. Burkett  
Product Development Manager
