Subject: New Products – One Step Pourable Sealant

GenFlex One Step Pourable Sealer is a two-component polyurethane sealant designed for sealing penetration pockets (GenPocket E and GenPocket T) used in conjunction with GenFlex roofing systems. Each carton contains four twin cartridges of Part A (750 ml), Part B (750 ml) and six (6) static mixers. GenFlex One Step Pourable Sealer can be dispensed using either the battery powered or nomadic One Step Applicator tool.

Features

- Two part polyurethane, no solvents, VOC: 0 g/L
- Static mixers (6) included with kits.
- Battery powered or pneumatic applicator tools
- Re-sealable Packaging

Benefits

Environmentally friendly, Sets up fast
Internal 1:1 mixing ratio eliminates hand mixing
Easy application with same applicator tools used for One Step Insulation Adhesive
Reduces waste

The following information can be used when ordering GenFlex One Step Pourable Sealer.

<u>Product Name</u>	<u>Qty</u>	<u>Product Number</u>	<u>List Prices</u>
