

# SAFETY DATA SHEET

## 1. Identification

Product identifier GenFlex Black One-Part Pourable Sealer

Other means of identification

Product code W593589090
Recommended use Sealant.
Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Company name Firestone Building Products, LLC

200 4th Avenue South Nashville,

TN 37201 USA

Email genflexmsds@bfdp.com

Telephone Number 1-800-443-4272 Contact Person SDS request

**Emergency Telephone** 

Number

CHEMTREC: 1-800-424-9300

# 2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Sensitization, skin Category 1

Reproductive toxicity Category 1B

Environmental hazards Hazardous to the aquatic environment, acute Category 3

hazard

Hazardous to the aquatic environment, Category 3

long-term hazard

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement May cause an allergic skin reaction. May damage fertility or the unborn child. Harmful to aquatic

life with long lasting effects.

Precautionary statement

**Prevention** Obtain special instructions before use. Do not handle until all safety precautions have been read

and understood. Avoid breathing mist/vapors. Contaminated work clothing must not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective

clothing/eye protection/face protection.

Response If on skin: Wash with plenty of water. If exposed or concerned: Get medical advice/attention. If

skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before

reuse.

Storage Store locked up.

**Disposal** Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

Supplemental information None.

## 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	CAS number	%
N-(3-(Trimethoxysilyl)propyl)et hylenediamine	1760-24-3	< 1
Dibutyltin bis(acetylacetonate)	22673-19-4	< 1

#### **Composition comments**

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. Components not listed are either non-hazardous or are below reportable limits.

#### 4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Remove contaminated clothing immediately and wash skin with soap and water. In case of Skin contact

eczema or other skin disorders: Seek medical attention and take along these instructions.

Rinse with water. Get medical attention if irritation develops and persists. Eye contact

Ingestion Rinse mouth. Get medical attention if symptoms occur.

Most important

May cause an allergic skin reaction. Dermatitis. Rash. Direct contact with eyes may cause temporary irritation. Prolonged exposure may cause chronic effects. symptoms/effects, acute and

delayed

Indication of immediate medical attention and special treatment needed

General information

media

Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.

## 5. Fire-fighting measures

Suitable extinguishing media Unsuitable extinguishing

Foam. Dry chemical powder. Carbon dioxide (CO2). Water fog. Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

May react with water liberating a small amount of methanol. During fire, gases hazardous to health may be formed such as: Carbon oxides (COx). Nitrogen Oxides (NOx). Silicon oxides.

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions Move containers from fire area if you can do so without risk. Use water spray to keep fire-exposed containers cool.

Specific methods General fire hazards Use standard firefighting procedures and consider the hazards of other involved materials.

Will burn if involved in a fire.

Formaldehyde.

## 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk, Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

#### **Environmental precautions**

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

### 7. Handling and storage

Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

### 8. Exposure controls/personal protection

#### Occupational exposure limits

Components	Туре	Value	
Dibutyltin bis(acetylacetonate) (CAS 22673-19-4)	PEL	0.1 mg/m3	
<b>US. ACGIH Threshold Limit Value</b>	S		
Components	Туре	Value	
Dibutyltin bis(acetylacetonate) (CAS 22673-19-4)	STEL	0.2 mg/m3	
	TWA	0.1 mg/m3	
US. NIOSH: Pocket Guide to Chen	nical Hazards		
Components	Туре	Value	
Dibutyltin bis(acetylacetonate) (CAS 22673-19-4)	TWA	0.1 mg/m3	

**Biological limit values** 

No biological exposure limits noted for the ingredient(s).

## **Exposure guidelines**

US - California OELs: Skin designation

Dibutyltin bis(acetylacetonate) (CAS 22673-19-4) Can be absorbed through the skin.

US - Minnesota Haz Subs: Skin designation applies

Dibutyltin bis(acetylacetonate) (CAS 22673-19-4) Skin designation applies.

US - Tennessee OELs: Skin designation

Dibutyltin bis(acetylacetonate) (CAS 22673-19-4) Can be absorbed through the skin.

**US ACGIH Threshold Limit Values: Skin designation** 

Dibutyltin bis(acetylacetonate) (CAS 22673-19-4) Can be absorbed through the skin.

**US. NIOSH: Pocket Guide to Chemical Hazards** 

Dibutyltin bis(acetylacetonate) (CAS 22673-19-4) Can be absorbed through the skin.

#### Appropriate engineering controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash fountain and emergency showers are recommended.

# Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Wear appropriate chemical resistant gloves. Examples of preferred glove barrier materials include: Hand protection

Nitrile. Suitable gloves can be recommended by the glove supplier.

Skin protection

Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. Other

If engineering controls do not maintain airborne concentrations below recommended exposure Respiratory protection

limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Chemical respirator with organic vapor

cartridge and full facepiece.

SDS US

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

**Appearance** 

**Physical state** Liquid. Liquid. **Form** Black. Color

Odor Not available. **Odor threshold** Not available. рΗ Not available. Melting point/freezing point Not available. > 392 °F (> 200 °C)

range

Does not flash. Flash point **Evaporation rate** Not available. Flammability (solid, gas) Not applicable. Upper/lower flammability or explosive limits

Flammability limit - lower

Initial boiling point and boiling

Not available.

(%)

Flammability limit - upper

Not available.

(%)

Explosive limit - lower (%) Not available. Not available. Explosive limit - upper (%) Vapor pressure Not available.

Vapor density Not available. Not available. Relative density

Solubility(ies)

Not available. Solubility (water) **Partition coefficient** Not available.

(n-octanol/water)

**Auto-ignition temperature** Not available. **Decomposition temperature** Not available.

**Viscosity** 220000 cps @ 2 rpm (70 °F (21.11 °C)) Other information % Solids: 99% @ 21°C(70°F) 50% RH

Not explosive. **Explosive properties** Oxidizing properties Not oxidizing.

VOC 21 g/l @ 21°C(70°F) 50% RH

## 10. Stability and reactivity

Reactivity May react with water liberating a small amount of methanol.

Material is stable under normal conditions. Chemical stability

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials. Incompatible materials Acids. Strong oxidizing agents. Fluorine.

Hazardous decomposition

Thermal decomposition or combustion may produce: Carbon oxides. Silicon oxides. Nitrogen

products

oxides. Formaldehyde.

W593589090 - GenFlex Black One-Part Pourable Sealer 949373 Version #: 01 Revision date: - Issue date: 29-May-2019

## 11. Toxicological information

Information on likely routes of exposure

**Inhalation** Prolonged inhalation may be harmful.

**Skin contact** May cause an allergic skin reaction. Prolonged skin contact may cause temporary irritation.

**Eye contact** Direct contact with eyes may cause temporary irritation.

Ingestion May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of

occupational exposure.

Symptoms related to the physical, chemical and toxicological characteristics

May cause an allergic skin reaction. Dermatitis. Rash. Direct contact with eyes may cause

temporary irritation. Prolonged exposure may cause chronic effects.

Information on toxicological effects

Acute toxicity Not expected to be acutely toxic.

Components Species Test Results

Dibutyltin bis(acetylacetonate) (CAS 22673-19-4)

<u>Acute</u>

**Dermal** 

LD50 Rat > 2000 mg/kg, 24 Hours

Oral

LD50 Rat 1864 mg/kg

N-(3-(Trimethoxysilyl)propyl)ethylenediamine (CAS 1760-24-3)

**Acute** 

Dermal

LD50 Rat > 2000 mg/kg

Oral

LD50 Rat 2413 mg/kg

**Skin corrosion/irritation** Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye

irritation

Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

**Respiratory sensitization** Not a respiratory sensitizer.

**Skin sensitization** May cause an allergic skin reaction.

**Germ cell mutagenicity**No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Based on available data, the classification criteria are not met.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

**NTP Report on Carcinogens** 

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

**Reproductive toxicity** May damage fertility or the unborn child.

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

**Aspiration hazard** Not an aspiration hazard.

**Chronic effects** Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.

**Further information**May react with water liberating a small amount of methanol. Methanol: Human exposure to methanol may result in illness, systemic poisoning, blindness, optic nerve damage and perhaps

death, after being ingested, absorbed through the skin or inhaled. Death due to cardiac or respiratory failure has been reported in some cases from consumption of as little as 30 mls.

W593589090 - GenFlex Black One-Part Pourable Sealer 949373 Version #: 01 Revision date: - Issue date: 29-May-2019

### 12. Ecological information

**Ecotoxicity** Harmful to aquatic life with long lasting effects.

**Test Results** Components **Species** 

N-(3-(Trimethoxysilyl)propyl)ethylenediamine (CAS 1760-24-3)

Aquatic

Acute

Algae EC50 Selenastrum capricornutum 8.8 mg/l, 72 Hours Crustacea EC50 Daphnia magna 90 mg/l, 48 Hours Fish LC50 Pimephales promelas > 100 mg/l, 96 Hours

Persistence and degradability

No data is available on the degradability of any ingredients in the mixture.

Bioaccumulative potential

No data available for this product.

Mobility in soil

No data available.

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow

this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches

with chemical or used container. Dispose of contents/container in accordance with

local/regional/national/international regulations.

Local disposal regulations

Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.

#### 14. Transport information

DOT

Not regulated as dangerous goods.

ΙΔΤΔ

Not regulated as dangerous goods.

**IMDG** 

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and Not established.

the IBC Code

#### 15. Regulatory information

**US** federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication

Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

**Toxic Substances Control Act (TSCA)** 

All components of the mixture on the TSCA 8(b) inventory are designated

"active".
